Welcome to Green Mountain **RED** Angus!

2025 looks to be a banner year for the beef industry. Whether it is registered or commercial we are seeing record cattle markets. We are currently at the top of the bell curve but fluctuations in the market will happen. The Red Angus Association of America continues to keep moving the value of Red Angus cattle in a positive direction so that demand remains high in any type of market. Over the past couple of years, collaborations have been formed that put more emphasis on the power of Red Angus genetics and red-hided cattle. Here are some of the highlights.

- RAAA has founded the Genetic Merit Pricing Task Force, which is an industry-wide group of leaders tasked with the challenge of removing hide color as an indicator of quality and replacing it with genetic merit.
- IMI Global will allow cattle producers who take advantage of Red Angus value-added programs to more easily utilize IMI Global verification services to boost cattle producers' profit potential, including their newest sustainability program, BeefCARE.
- RAAA is in partnership with Adams Land & Cattle, of Broken Bow, NE, to source cattle for Tyson's Brazen Beef Program. This thriving program has procured a substantial number of Red Angus influenced feeder cattle with demand on the rise. Requirements include age & source verification, EID attached to an enrolled calf group such as FCCP, and enrollment in BeefCare.
- Sustainable Beef, LLC, in North Platte, NE, will be opening this year and rely on genetic merit rather than hide color, requiring all cattle to carry an EID. Again, this falls right in line with FCCP.
- Changes to the USDA Live Animal Specification for eligibility into Angus influence certified beef programs validates that Angus are Angus, regardless of color. Cattle enrolled in FCCP qualify by traceability to Red Angus parentage. Eligibility also includes cattle that have solid red coloring.

You can see the consistency in development of these forward moving programs and how they work together to provide cattlemen options for improving the value of red-hided cattle. Efforts are constantly being made to ensure the viability and profitability of Red Angus cattle. The crew at Green Mountain continues to work hard promoting our customers' cattle as well. Partnerships with Superior Livestock, Allied Feeding Partners, and Top Dollar Angus allow us to provide marketing options and opportunities.

We would like to thank you for putting your trust in our program. We hope you enjoy looking at the genetic packages offered in this catalog. Please reach out if you would like any additional information to help with your genetic selections. We look forward to seeing you on sale day!

Get off 1-90 at the Logan Exit, #283. Go north and take a left on the frontage road. Proceed west toward Three Forks, about 1/2 mile. Take a right onto Logan Trident Road, heading north. The road immediately crosses the Gallatin River and the railroad tracks, as shown on the map. Green Mountain Red Angus is 2 miles from the railroad tracks. Watch for the large Green Mountain Red Angus sign.

The entire GMRA herd has undergone GGP-LD testing and have genomically enhanced EPDs and parent verification.

TERMS AND CONDITIONS

1. The terms of the sale are cash unless prior arrangements have been made.
2. Each animal will be sold to the highest bidder. The person in charge will settle any disputes as to bids, and his decision on such matters shall be final.
3. Any announcement from the seller on sale day will take precedence over printed material.
4. Health certificates will be furnished for shipment anywhere in the United States.
5. Each animal becomes buyer's risk as soon as sold; but it shall be the obligation of the seller to see that animals are fed and cared for, free of charge to purchaser, until loaded for shipment or until the expiration of April 1st of the current year.
6. Retained Interest: Green Mountain Red Angus is retaining 50% revenue share interest in all bulls in the sale. We reserve the right to participate in the collection and marketing of semen. Buyers receive 50% interest, full possession and full salvage value. If seller wishes to collect semen for in-herd use only it will be at seller's expense and the buyer's convenience. If the buyer wishes to share in the collection costs and keep his share for in-herd use that is their choice.
7. All claims for adjustment or refund must be made in writing within six months of the sale date. In the event an animal is claimed to be a non-breeder, the Seller shall be entitled to six months' trial following the return of the animal in which to prove the animal is a breeder. If at the end of six months the Seller is unable to prove the animal is a breeder, restitution shall be made, in compliance with the terms set forth by the Red Angus Association of America. Any expenses incurred for transporting the animal shall be the buyer's responsibility. Credit to be utilized on a single lot and will expire within a year of sale date. If bull is utilized for the first breeding season, credit will be extended on a prorated basis, based on a 4-year breeding life span.
8. Everyone attending this sale does so at their own risk. Owners, clerks or other helpers do not assume responsibility, legal or otherwise, for damages of any kind.
9. A certificate of registry and transfer will be furnished for each animal sold as a registered animal, after settlement has been made.
10. The above terms and conditions shall constitute a contract between the buyer and seller of each animal sold.

These cattle do sell in accordance with the Sale Terms and Conditions set forth by the Red Angus Association of America.

A-BAG-A-BULL

RED ANGUS
RANCH TESTED. RANCHER TRUSTED.

If you purchase a bull from us, we will provide you with credit equal to the value of one bag of Feeder Calf Certification Program or Allied Access tags for each bull you purchase. To redeem your credit, bring your receipt for the tags to next year's sale and we will apply it to your bull purchase.

The FCCP provides age, source and genetic verification for calves sired by registered Red Angus bulls. The FCCP 'yellow tags' are recognized by buyers nationwide and return a premium for Red Angus calves enrolled in the program.

The Allied Access program provides age and source verification for commercial cattlemen whose bull battery does not exclusively contain registered Red Angus bulls. Whether you are utilizing multiple sire breeds or halfblood bulls, enrolling in Allied Access demonstrates to buyers that you are taking an extra step in marketing your calves and adding value throughout the production chain.

To enroll in the FCCP or Allied Access, contact the Red Angus marketing department. Enrollment is simple and free of charge.

DELIVERY ARRANGEMENTS & PRICING

Organization of trucking is more challenging than ever and we appreciate your understanding of our delivery policy and look forward to working with you to ensure the most effective means of transfer of ownership. Delivery arrangements and pricing are outlined below, and we encourage you to review. Please visit with Bob or Tom prior to leaving the sale if you have questions. One of them will be in contact with you within a week of the sale to coordinate delivery.

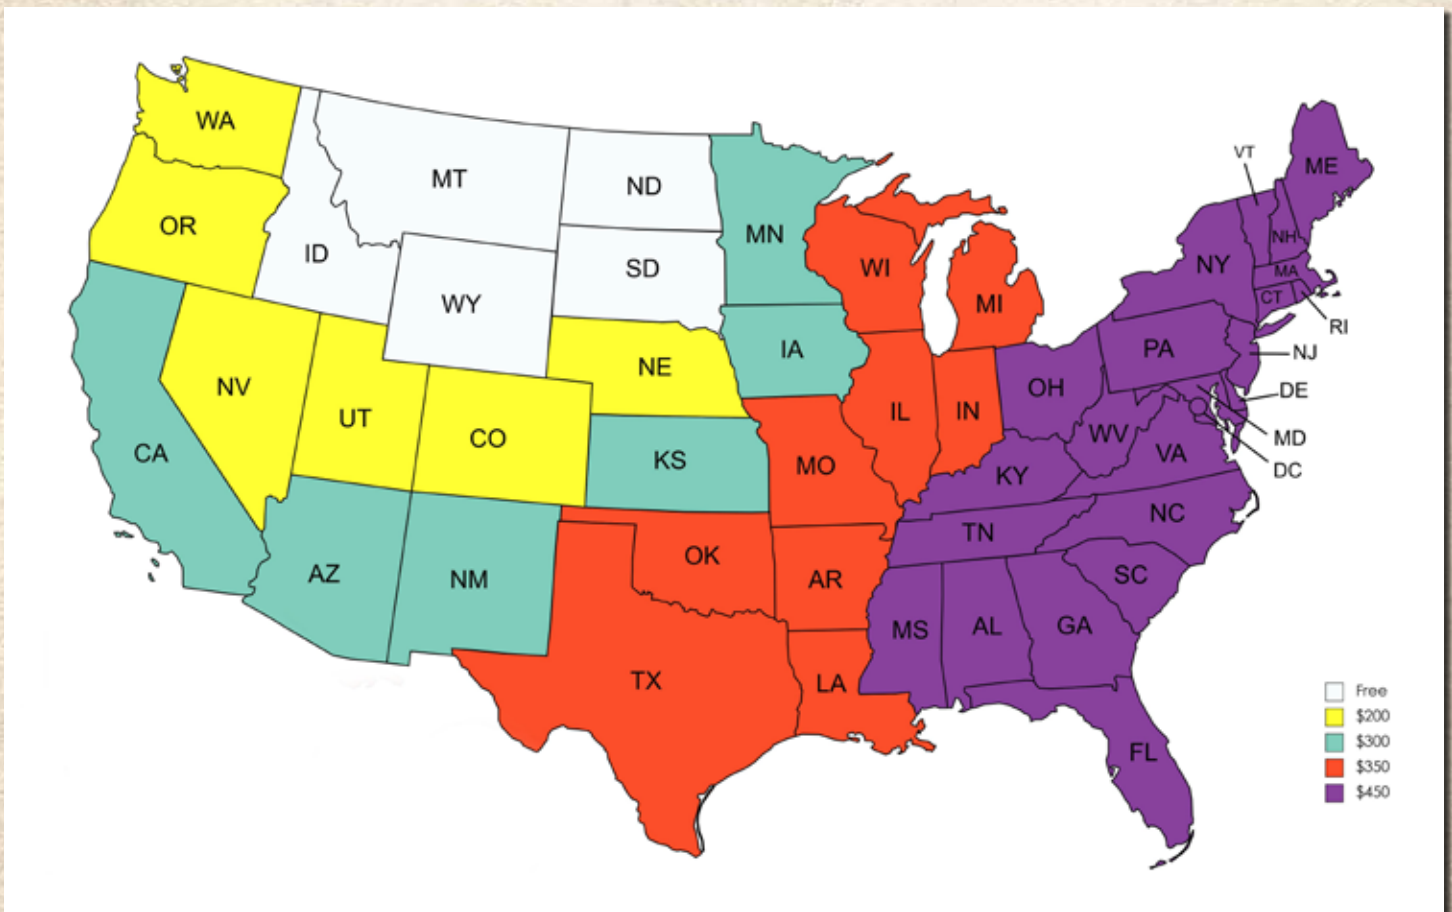

DELIVERY PRICING

We will offer **FREE DELIVERY TO CENTRAL POINTS** in Montana, Idaho, North Dakota, South Dakota & Wyoming. For all other states, delivery will be charged to **CENTRAL POINTS** on a per-head basis on the pricing outlined on the map below. **Pricing will be charged based on your physical address.** Delivery charges will be added to each invoice at check out, unless you plan to load out within 7 days of the sale.

CENTRAL POINTS

All delivery will be organized to **CENTRAL POINTS** within the state. Delivery WILL NOT be organized to your home or ranch. Loads are delivered by semi-truck and require drop off points along their route with a loading chute and location to house livestock. You are expected to meet the semi-truck driver at the central drop-off point as communicated by them. Central points for delivery include auction barns, vet clinics and other locations determined by the semi-truck driver at the time of delivery. Pricing to these central points will be charged to you based on your physical address. The driver will be given your contact information and will communicate with you regarding the drop-off time and location.

Thank you for your cooperation in arranging delivery dates and the pick up of your cattle at central delivery points within your state. This will keep the cattle from being on the semi-truck longer than necessary and will help to get your animals to you with the least possible stress and in the best possible condition. Please let us know if you have any questions.

What is Top Dollar Angus?

Top Dollar Angus is the beef industry's leading genetic verification and marketing assistance company for commercial feeder cattle. We focus exclusively on Angus- and Red Angus-influence cattle ranking in the Top 25% for growth and carcass traits.

Our focus on these traits is driven by the needs of our feeding partners. In today's marketplace, cattle feeders must know the cattle they buy will stay healthy, grow quickly and efficiently, while also delivering high-value carcass traits. Top Dollar Angus verifies cattle with Top 25% genetics, presenting feedlots with a product they can trust.

The relationship between Green Mountain Red Angus and Top Dollar Angus rewards our buyers who focus on producing profitable cattle and provides them with the genetics to be successful in today's marketplace. Top Dollar Angus magnifies that success by connecting Top Dollar Angus feeder calves with our ever-growing network of feeding partners.

How Do I Enroll?

Learning more about Top Dollar Angus Feeder Partnership enrollment is simple.

1. Contact a representative listed below via phone or email. Please share your phone number and email address.
2. Answer a few questions about your operation's background including bull suppliers and, if available, registration numbers on bulls used in your herd.
3. Submit any of the following for a free genetic evaluation.
 - **Registration Numbers** – A five- to seven-year history with more years preferred. Many seedstock breeders can help supply this information.
 - **Commercial DNA test** such as:
 - Igentity Beef by Neogen
 - GeneMax or Inherit by Zoetis
 - **Recent carcass data on your cattle**
4. Submit your information for review. After your evaluation, we will notify you about your cattle's qualifications and ranking or be able to advise you on adjustments and improvements you can make to qualify.

"The Morton Family at Green Mountain Red Angus exemplifies the term 'customer-oriented.'" A perennial 'Top 5' Top Dollar Angus Seedstock Partner, they have the highest customer utilization: bulls sold ratio of any Seedstock Partner. They truly are a powerhouse when it comes to making sure their customers are taken care of."

Bieber Blue Chip H302, Sire

Don't pass up this incredibly complete package. Calving ease – check! Breed-leading EPD rankings – check! High-end personal performance – check! Perfect feet and leg scores – check! Capacity, capacity, capacity – check! Great muscle expression – check! Maternal power – check! When you add it all together you get one of the most functional and versatile bulls in the offering. He's a true curve-bender with an amazing 14 of his EPDs in the top 25% of the breed. From birth through performance, he is a carbon copy of his full brother that sold last year to the Cooksley Ranch for \$13,000. The cow family is second-to-none, tracing back to the Chiga foundation herd with only four MPPA's in the direct lineage under 100 for 70 years!

Where to start? From performance to phenotype to numbers, this bull never quits. Here is the lowest birth weight in the offering with one of the most impressive sets of growth ratios we've seen on a supreme calving ease bull. The term "Curve Bender" must have been coined for just this type of bull. Not to mention he should be a great female maker, with a 107 MPPA dam that ranks in the top 2% of the GMRA herd, and a 105 MPPA grandam. Overall, the EPDs are one of the most solid in the offering with all but four in the top 31% of the breed. Consistent top-end birth, growth and carcass combines with breed-leading maternal and all indices in single-digit percentiles. Phenotypic evaluations are outstanding as well. A very broad top and chest floor show off extra depth of rib and capacity. Add in extra thickness and a square rear quarter. Don't try to figure it all out – just take him home!

First comment at evaluations: What a tank! Second comment: Heckuva nice power bull! A masculine front end leads to a broad top and chest floor. He received top marks for extra length, rib depth, capacity and thickness. His dam is a solid performer with a 102 MPPA on six. He posted the #3 actual WW and is in the top five for adjusted WW and actual YW among his contemporaries. Everything lines up with a number profile that shows lots of growth and carcass and a top-notch set of indices. Overall, 13 numbers are in the top 25% of the breed or higher, which is a rare find.

This guy has quite the history. He was born to a mature 100 MPPA Trilogy dam. They were mothered up nicely, and at some time in his first 24 hours of life (before he was tagged) he and another calf decided to swap moms. Thanks to DNA testing, he has the correct pedigree, but alas, no performance ratios. Nevertheless, he decided to make things work to his advantage and would have posted a WR of 116. He posts breed average BW, followed by an exceptional set of growth numbers and high-end carcass traits. Phenotypic evaluations are excellent, showing extra length, depth of rib and capacity with extreme thickness and a deep rear quarter. He's clean fronted with a very broad top and chest floor, all sitting atop a set of ideal feet and legs. Tremendous eye-appeal places him at the front of the pack.

Wow! Calving ease combined with performance! Here is a true curve-bender with a list of high-end performance achievements. He ranks in the top five in the class for WR, YR, WDA and actual and adjusted weaning weight, while turning in one of the lowest birth weights on test. EPDs tell the tale, with breed-leading birth and growth numbers and standouts in carcass and maternal as well. His young dam is already posting a 104 MPPA on two. The maternal pedigree takes you back to a 1989-born EBV 3531 dam with a 106 MPPA on eight calves. A broad top leads to extra depth of rib with abundant capacity and a wide chest floor. The potential is endless – breed 'em, keep 'em, or feed 'em.

There are a lot of King James daughters coming into production for 2025. If this bull is any indication, they are going to make their mark on the herd. His dam has a 104 MPPA and is backed by generations of performance-minded females. There are eight MPPAs in the direct lineage that go from 100-112. This includes GMRA Lakota 625, who is the dam of GMRA Trilogy 0226, who ranked in the top ten most used bulls in the breed in 2016 and 2017. Impressive personal performance elevates this bull to the top of the class. He sits in the top five for actual and adjusted YW, YR, ADG and ratio, and WDA. The numbers match up with single-digit percentile growth and an absolute top-notch set of carcass numbers with a 1% GM index. These standouts match an equally impressive phenotype wrapped in a cherry red hide. A nice, broad topline leads into extra spring of rib. Tons of extra capacity and thickness are evident along with a beautiful rear quarter.

Whoa! If you go back through all those numbers again, I wouldn't need to write a footnote! But I will, just in case... This Heavily Armed daughter put everything she had into raising this bull calf, giving her an impressive 110 MPPA in the top 1% at GMRA. Her maternal pedigree tells the story with so many 100+ MPPA's, you lose count. The number set is one of the most consistent in the offering with 13 in the top 1/3rd of the breed or higher. Extra length and a great set of feet and legs compliments a very well put together bull with a straight broad top. He just does everything right and has the #1 WR and YR of all GMRA bulls.

A great disposition is the cherry on top of this high-performance Jumpstart son. Outstanding personal performance while on test leads to 110 ADG and 109 WDA ratios. He is in the top five of the class for WR, YR and WDA. This falls right in line with top 1% growth EPDs. Carcass is on point with a breed-leading REA and GM. Phenotypic evaluations give him above average scores for length, depth, capacity and thickness. He is backed by the ever-impressive Estonia cow family and generations of powerful females on both the top and bottom of the pedigree.

What a great Jumpstart x Brunswick combination! This bull's young dam posts an impressive 106 MPPA on two, which ranks her in the top 4% at GMRA. She is backed up by generations of performance-minded females with MPPA's ranging all the way up to 108, going back to an original Cawfield cow purchased by GMRA in the early 1980's. The number set is impressive with eight in single-digit percentiles, including all growth, Milk, Marb and REA. At evaluation time he impressed with a ton of power. A broad top and extra length lead into extra capacity and a great rib shape balanced with a wide chest floor. His rear quarter is well-proportioned with a great muscle pattern.

There's no surprise that this Game Changer x Heavily Armed combo has a ton of capacity. He turned in the #5 actual and adjusted weaning weight for GMRA. His dam has an MPPA of 101 on three and is really starting to show her potential with this calf. The maternal pedigree is full of young dams with high-performance MPPAs ranging all the way up to 111. Numbers point to outstanding growth along with a single-digit percentile HB. An ideal set of feet and leg scores completes the package.

Tons of eye-appeal make this bull stick out in a crowd. He is smooth made with a generous rib shape and plenty of capacity and a nice muscle pattern flowing down through the rear quarter. He hits all the heifer bull qualifications yet has a masculine front-end and good power. He turned in a 113 ADG ratio, placing him in the top five on test. Curve-bender deluxe sums him up. The phenotype and personal performance combine nicely with the genotype. All calving ease and growth numbers sit at single-digit percentiles. Use him on heifers and then move him straight onto mature cows without any concerns.

This Grand Prairie son is brought to you by Sutton Dunbar. He posts the #1 adjusted WW and YW for DDRA. Consistent high-end growth turns in a 106 ADG and the #2 WDA, along with the #4 WDA ratio in the offering. Look for extra capacity and thickness with a great set of feet and legs. A consistent set of numbers keeps twelve in the top quarter of the breed or higher. There is only one EPD that doesn't rank in the top 64%.

The Patriot sons just aim to please. First comment at evaluation time was 'Typical Patriot,' which automatically means he will have a great phenotype. His BW combines nicely with a small head and smooth shoulders that will lend to worry free calving. His dam is an impressive first-calf heifer already ranking in the top 7% of the GMRA herd, posting a 105 MPPA that follows in the footsteps of the maternal pedigree. Numbers are strong with single-digit percentile growth, Milk, CW, and REA. He showcases generous capacity and a strong, square rear quarter. Feet and legs are excellent, and he strides out nicely.

There are only three bulls in the class with over half of their EPDs in the top 10% of the breed and here is one of them. It's as strong as it gets and backs up impressive performance. He posts the #3 WDA on test and ranks in the top three DDRA bulls for adjusted WW and actual YW and hits #2 for adjusted YW. Consistent growth gives him an ADG ratio of 109 and WDA of 107. One look and the power is evident, with top marks for spring of rib and capacity with extra length and thickness and an outstanding set of feet and legs.

There is a lot of potential in this bull so don't let the YR scare you. He had a bit of a downturn after the first of the year with some treatments needed, but is now back on track. The number set is solid with a nice birth to growth spread complimented by strong maternal and carcass. His dam posts an MPPA of 101 on eight with a direct maternal lineage of MPPAs ranging from 101-106 for over 40 years. A straight broad top leads to a generous rib shape with tons of capacity. He combines phenotype and genotype with a strong pedigree.

Phenotype to genotype to performance... it's all there! A super straight top leads to a very well put together conformation. Indices and EPDs rank an impressive nine in the top 25% of the breed. ERTs of growth, CW and REA land in that top 25%, while he maintains high-end maternal. All performance ratios range up to 107 with none below 101. This bull excels on all fronts and takes moderate birth weight to top-notch performance with above average capacity and thickness.

The numbers indicate performance, but the real story here is maternal power. His dam ranks in the top 7% of the GMRA herd, posting an MPPA of 105 on four, with all progeny retained. She is a product of the great Estonia cow family with direct maternal MPPAs ranging from 101-105 for 50 years. Her 2022 heifer calf was the pick of Bar Open A Red Angus when they purchased our 'Elite Pick' in the 2023 Big Sky Elite sale. Single-digit percentile indices, Milk, HPG, Stay and Marb are the standouts in a powerful number set. Extra length rounds out the package.

Uffda! This bull's dam was purchased as a bred heifer in the fall of '23. Bob wanted to bring in some outside genetics. Julie wanted a bull calf named Uffda. Either way, it worked. She did a tremendous job for us, coming into a new herd and environment, dropping an extreme calving ease bull, and turning in a solid 100 MPPA. That's a lot to ask under those conditions. The best note during phenotypic evaluations was that he doesn't look like a 59# BW bull. He has grown out nicely and has maintained one of the most consistent ADG's on test.

Dam is a very solid producer with an MPPA of 102 on nine. She is a product of the highly prolific Lakota cow family. The direct lineage posts MPPAs from 101 up to 112 for multiple generations. That's a nice combination with Apache, who is out of the most high-performance dam we ever purchased at NILE, with an MPPA of 101 on ten. The top 10% HB, Milk and Stay back it all up making this bull a great option for making long-term replacements.

This bull hit the ground at a nice, moderate birth weight and decided to keep growth at the forefront. All performance ratios are 107 or higher. This matches a phenomenal set of growth EPDs sitting in the top 1% of the breed. He is out of a first-calf heifer with a top 7% MPPA of 105 that rings true, as growth never slows down. A smooth transition from head to shoulder leads into a straight top line with extra length, depth of rib and thickness. This Stockmarket son spells P-R-O-F-I-T!

This bull is backed by a powerful dam with a proven track record. She posts the #1 MPPA of 107 on seven in the DDRA herd, with all progeny being retained. Let this guy go straight into the cow herd and prove out the performance. He turned in the #1 actual WW, #3 adjusted WW and #2 actual YW in the herd. His EPDs back up the data with top 10% growth and single-digit percentile standouts in carcass and maternal. Versatility gives you the option to sell at weaning, retain, or keep replacements in the herd.

This calving ease bull's accelerated gains through yearling give him an ADG ratio of 107 and WDA of 105. He has an eye-catching phenotype with a clean front end leading to a great rib shape with extra capacity. He shows extra thickness in the rear quarter as well. Good combination with the breed-leading calving ease numbers and a friendly disposition.

Look for a nice long stride, extra length, and an ideal set of feet and legs. Accelerated growth through yearling gives this guy the highest ADG in the offering along with an adjusted YW in the top 5. Numbers are all there and match the performance with nine in the top 8% including top 1% growth. Maternal EPDs are breed-leading and match up with one of the strongest maternal pedigrees in the herd. Dam has an MPPA of 103. She is the product of generations of high-performance dams that never drop below 100 and range all the way up to 108 for more than 60 years. This is literally a 'Foundation Pedigree.'

Outstanding gains while on test give this bull an ADG ratio of 117, which is one of the highest in the class. A perfect set of feet and leg scores lead up into a broad chest floor and a smooth, yet powerful front end. Extra rib depth, capacity and muscling round out the phenomenal phenotype. Numbers are incredibly strong with all but two in the top half of the breed, while twelve of those are in the top 30%.

A great combination here with the genotypic power of Stockmarket and the phenotypic style of Brunswick. The number package is consistent from indices to growth to maternal and carcass. Numbers highlight top-notch ProS and GM with top 2% growth with standouts in maternal and carcass. The maternal pedigree shows a dam and granddam with matching MPPAs of 107. His dam posts a 109 average WR, 104 average YR, and an average 123 IMF ratio, all on three calves. Her performance ranks her in the top 2% of the GMRA herd. Her bulls have always commanded attention in past sales. Look for an outstanding set of feet and legs and extra capacity. This bull carries one of the highest actual weaning weights in the offering.

This King James son is out of a really nice, moderate Stockmarket dam posting an MPPA of 100. That's a pretty neat number when you consider she is quite a bit smaller framed than the majority of the GMRA herd. The straight maternal lineage posts MPPAs at 100 or higher for 50 years. Calving ease, Milk and Stay are the star EPDs here, backing up an 11% HB. Female maker!

The dam passed on the traits we know and love from the Brunswick daughters – extra rib shape with tons of capacity. There's a nice base with exceptional feet and leg scores. The numbers don't disappoint with all but one in the top 75% of the breed, and only two more that don't reach the top half. ProS and GM lead the pack for extreme growth and top-notch carcass numbers.

All but four of this bull's EPDs are in the top half of the breed, with seven of those in the top 10%. Dam has an MPPA of 102 on 4 and is backed up by the highly performance-minded Estonia cow family. Seven direct maternal generations post MPPA's ranging from 100-105 with nothing below that for 50 years. This Patriot son is smooth-made with a tight sheath.

Tons of eye-appeal sit atop a perfect set of feet and leg scores. Phenotypic evaluations show extra length, with outstanding depth of rib and capacity all complimented by extra thickness. A broad top and chest floor blend in well with the rib shape. A smaller head matches calving ease numbers. His dam has weaned nine calves and posts a nice solid 100 MPPA and is backed by an impressive set of generational MPPAs that read 105, 108 and 109.

The combination of Game Changer and Brunswick gives the expected voluminous rib shape with extra capacity. This power bull is smooth made with a masculine front end with a broad top and chest floor leading to a thick rear quarter. A perfect set of feet and leg scores and a fantastic disposition add to the package. Single-digit growth numbers compliment an overall strong set of carcass EPDs.

Numbers stand out across the board, from indices to growth, carcass and maternal. All growth is in single-digit percentiles along with Stay and CW. Dam does a nice job with an MPPA of 103 on four and an average WR of 104. A top-notch actual YW puts him at the head of the class. He is clean fronted with a tight sheath and extra length. At the end of the day pounds pay, and this bull will help the bottom line.

Lots of phenotypic power and expression here. Extra length combines with a nice spring of rib and enormous capacity with above average thickness. Continued growth through yearling gives him the #1 actual YW and #3 adjusted in the DDRA group. He posts the #1 ADG ratio in the offering of 126 matching a top 4% ADG EPD. Overall, he posts 15 numbers in the top 60% or higher with single-digit percentile YW, CW and REA.

The dam of this bull was our pick of the Feddes Cattle Company bred heifers in the 2023 Big Sky Elite Female Sale. Her beautiful conformation and fantastic feet and legs carried through to her first calf. He has a broad top and a square rear quarter. Numbers are extremely consistent across the board with over half in the top 1/3rd of the breed or higher.

This bull is backed by two of the best heifer bulls we have used in our AI lineup. Growth accelerated through yearling gives him an ADG ratio of 103. EPDs are strong with all but four in the top half of the breed. Standouts are across the board with single-digit percentiles from indices to growth, carcass and maternal and one of the top DMI's in the offering. Foot and leg scores all sit at 5 and are the base for a straight top leading into extra capacity and thickness with a square rear quarter.

This poor fella lost his mom to a nasty infection when he was just three months old. He decided to fend for himself and did so with enough style to go on test. He has a straight top and is well put together with extra thickness and a nice rear quarter. Best comment at evaluations: Looks good – wouldn't know he was an orphan. Numbers keep calving ease in line while moving on to top 10% growth. The coolest thing about this guy? For all of his hardships, he turned in the #3 actual ADG of all bulls on test.

This moderate Patriot Son comes complete with a great number set. Here is one of the few bulls in the class with 14 numbers in the top 1/3rd. All of his carcass ranks in that group as well. His young dam posts a 102 MPPA and follows a long line of performance-minded females with MPPAs all the way up to 105 for several generations. Look for a well-muscl'd rear quarter and great feet and legs.

Laney Dunbar is the proud consignor of this bull. He has a great conformation that you just can't pick apart. He shows remarkable length with abundant capacity and a thick rear quarter. Feet and legs achieve perfect scores. His dam is a daughter of the #1 MPPA cow in the GMRA herd, and her own MPPA is a 103 on eight. She has an average WR of 103, never raising a calf under 100, and an average YR of 102. This bull is no exception and has DDRA's #5 actual WW. Numbers don't disappoint and stay strong with breed leaders across the board.

This bull's dam is one of the most experienced in the herd. She's one of those consistent producers that always raises a nice calf. This guy is no exception, with a broad top and a smooth phenotype with extra thickness. Overall, a very nice-made, powerful bull. Indices stay in the top 1/4 of the breed, with weaning in the top 1/3 and a very complete set of carcass numbers, including several in single-digit percentiles.

When your mom has the kind of performance and pedigree as his does, you earn a place on test. He gained well, turning in the #4 ADG in the class. His dam has a 104 MPPA, preceded by seven generations of maternal power posting MPPA's up to 105 for almost 70 years. The EPDs highlight growth with maternal and carcass standouts.

There is a really nice set of numbers here. He is one of only three bulls that have all but three numbers in the top half of the breed. 13 are in the top 28% or higher, including all indices and growth, while maternal and carcass stay strong. This very complete number set comes with extra length, depth of rib and thickness.

This bull is the last calf out of the current Matriarch of the GMRA herd. After 11 natural calves with the #1 MPPA in the herd of 111 she has earned her retirement. No trip to town for this lady. She gets to relax and wander around the ranch until she decides to head to greener pastures. Over her productive lifetime she has an average WR of 113 and YR of 111. Her EPDs are still relevant in today's industry, and you can see that in this bull's number set. Growth, Milk, Stay, Carcass – it's all there.

Here is a well put-together King James son with great eye-appeal. He leads off with a smaller head and a clean front end. He carries plenty of capacity and a thick, square rear quarter. His dam's MPPA is 101 on 4, with all progeny being retained. This matches up nicely with ProS and HB in the top 15%. Single-digit percentile CED and BW confirm heifer bull status.

This bull had to qualify for test on his own merit. His dam died during the summer, leaving him to grow out with no performance ratios posted. It is rare for an orphaned calf to come off the mountain at weaning time that fits right in with the rest. A clean-fronted, smooth-made phenotype, which he still shows today, kept him in the game.

This bull carries a nice phenotype. He's attractive with a broad top leading into extra capacity and thickness. His dam has done a great job for us with a solid 100 MPPA on seven. Her past bull calves have shown a similar attractive phenotype. Her average BW is 84, so we're not sure why she decided to add some pounds here, but he calved fast and easy. Growth numbers are impressive. He will go into the mature pen and add style and structure, with the option of retaining replacements.

There is a powerful dam behind this bull, whose performance places her in the top 4% at GMRA. She has an MPPA of 106 on five with an average WR and YR of 108. The maternal lineage really shines in female production with MPPAs ranging all the way up to an impressive 109. Single-digit percentile ProS and HB indices back that up, along with Milk and Stay. There is also single-digit growth across the board. Don't hesitate to use him to manufacture replacements that will bring power to the herd. A perfect set of feet and legs just solidifies that decision.

We purchased this dam with an outstanding history as a donor cow, but she had a hard time making the transition into a Montana herd. This bull still made the cut for bull test. Compensatory gain gives him an ADG ratio of 102. Combine that with strong growth EPDs and the genetic potential comes through.

There isn't a more complete EPD set in the class. All birth and growth numbers are in the top 1/3rd of the breed and all but four numbers are in the top half. He showcases a smooth-made phenotype with plenty of eye-appeal.

REDS RISING

Escalate Your Prosperity

Red Angus boosts profitability with docile temperaments, environmental resilience, premium carcass quality and exceptional maternal traits. Registrations have surged by 24% over the past decade, underscoring Red Angus' significance across all segments of the beef industry.

Scan the QR code for real rancher stories about the rising power of Red Angus.
